

MY RANT ABOUT AMERICA

Josephine Obiofuma

You know what I don't like about America?

Is that it's nicknamed The UNITED States but systematically
Oppresses only to claim it's not about RACE.

You know what I don't like about America?

Is that it screams anti-Black but advertises for
Diversity and inclusion because it's Black representation America lacks.

You know what I don't like about America?

Is the injustice I see, a system where impoverished Black boys
Are convinced to take a plea.

You know what I don't like about America?

Is that being Black is seen as a crime, it doesn't matter
If it's white collar. . . a Black man will never get privileged that time.

You know what I don't like about America?

Is that the system was founded off racism, blood, and lies. . .
A place where black voices advocate for equal justice but get
Criticized for our cries.
